re: **Aboveground Storage Tank Closure Report**
Silver Strike Motel, 201 North Main Street, Tonopah, NV
Facility ID# G-000023

Dear Mr. Eason,

On June 30, 2005 the Nevada Division of Environmental Protection (NDEP) received a request for regulatory closure of environmental conditions associated with an aboveground storage tank known to have released petroleum hydrocarbons at the subject site. Based on the analytical data included in a letter report prepared by Ninyo & Moore., dated June 27, 2005, the NDEP has determined that additional corrective action will not be necessary and **no further remedial efforts are required at this time**. However, the NDEP reserves the right to reverse its decision at any time if conditions at the site change, or new information or previously unidentified information which would alter the results of the site evaluation becomes available and demonstrates that conditions at the site may have a detrimental impact on public health or the environment [Nevada Administrative Code 445A.22705, subsection 2].

If you have any questions concerning this matter, please contact me at (775) 687-9384.

Sincerely,

A handwritten signature in dark ink, appearing to read "Scott Smale".

Scott Smale
